Nigeria NOW! Agenda

Day One – Thursday 19 November 2026

07:00	Transcorp Hilton Abuja
	07:00 – 08:30 Registration & Coffee
08:30	Lagos/Kogi/Osun Room
	<div>08:30 – 09:45 YES! Nigeria – Empowering Today’s Entrepreneurs, Building Tomorrow’s Industrialists Opening Ceremony</div> <div>The world’s most exciting youth programme arrives in Nigeria, but what next?</div> <div>YES! was created in response to a critical demographic reality: nearly half of Africa’s population still lacks access to electricity. By 2050, the continent is expected to have the world’s largest working-age population, with over 830 million young people aged 15–24. To keep pace with this growth, Africa must create approximately 1.5 million new jobs every month, a demand that will continue to rise (IMF). The mission of YES! is to accelerate electrification while unlocking employment at scale by engaging 10% of the population. Central to this ambition is the development of a 100-million-strong youth network across Africa, built through partnerships with industry leaders, governments, global institutions, and educational organisations.</div> <div>EnergyNet Welcome Remarks: Simon Gosling, MD, EnergyNet</div> <div>With roughly 70% of Nigeria’s population aged under 30, youth are the engine of Nigeria’s growth – what is the metric of success?</div> <div>Keynote Speech: Honourable Dayo Israel, National Youth Leader, All Progressives Congress (APC), Nigeria</div> <div>Keynote Address: Omobolade Oghiadomhe, Chief of Staff, Nigeria, Flutterwave</div> <div>Connecting the Dots: The mobile world and financial innovation have flourished in Nigeria, with companies like Flutterwave sitting at the crossroads of both sectors, whilst delivering a payments platform.</div> <div>Walk With Me Programme: Why YES!? Hear success stories from YES! Alumni and be blown away!</div> <div>Nigeria’s young people have an opportunity to contribute to and shape the Nation’s future utilising a booming manufacturing and industrial base, AI and a surging amount of capital. We have invited some of the most active to showcase what they are doing and how they are doing it.</div> <div>Speakers<div><div><div>Damilola Hamid Balogun CEO & Co-Founder, Youth Sustainable Development Network</div></div><div><div>Abubakar Shuaibu MD, Astound Power</div></div><div><div>Josephine Olamide Atoyebi Advisor, World Energy Congress, World Energy Council</div></div></div></div>

**Princess Zahrah
Mustapha-Audu**
DG, Presidential Enabling
Business Environment
Council (PEBEC), Nigeria

12:00

12:00 – 12:15 **Session Switchover**

12:15

Lagos/Kogi/Osun Room

12:15 – 13:30 Capitalising on Nigeria’s Mineral Sector: A Gateway for Global Investors

Understanding the scale and opportunity of Nigeria’s vast mineral wealth and West Africa’s broader role supporting global demand for critical minerals.

- Nigeria’s long-term vision for international partnerships and investment in the solid minerals sector
- Increasing export capacity while promoting domestic processing, value addition and industrialisation
- Understanding the policies and opportunities for foreign investors to participate in Nigeria’s minerals sector
- Positioning Nigeria within African and global critical-mineral supply chains

2023-2026 Investment Highlights:

- Major lithium processing investments, including US\$600 million and US\$200 million facilities
- US\$1 billion integrated iron ore-to-steel processing project
- US\$150 million Green Mining Investment Fund targeting gold, lithium and rare earth elements
- US\$400 million rare earth and critical-minerals processing project in Nasarawa State, bringing total processing capacity to approximately 18,000 tonnes per annum

Speakers

**H.E. Honourable Dr.
Oladele Henry Alake**
Minister of Solid Minerals
Development, Nigeria

Martins Imonitie
MD/CEO, Nigeria Solid
Minerals Company, Nigeria

Tunde Arisekola
Senior Advisor, Geological
& Minerals Information,
African Minerals
Development Centre
(AMDC)

Rose Chundung Ndong
President of Nigerian
Mining and Geosciences
Society (NMGS)

Abubakar Sadiq Omar
MD, Steron Mining

13:30

Taste of the Regions

13:30 – 14:30 **Lunch – “Taste of the Regions” – A culinary showcase of regional Nigerian cuisines, curated to demonstrate agricultural diversity**

14:30

Lagos/Kogi/Osun Room

14:30 – 15:45 Power Sector Focus: Establishing a Robust Energy Mix to Attract World Class Investor Returns

While Nigeria is aggressively restructuring its power sector to drive downstream electricity capacity directly into high-growth industrial sectors like mining and refining, flagship initiatives like the Nigeria Electrification Project (NEP) and Mission 300 are scaling up the financial and commercial viability of rural off-grid markets, and Green Bonds offer new opportunities to international investors.

- Accelerating power generation – Nigeria’s short to medium goals to increase private sector participation
- What has changed under this administration in Nigeria to support IPPs reaching financial close?
- Structuring the \$1 billion Domestic Green Bond – offering the opportunity to both domestic and international investors to access Nigeria’s climate projects
- Opportunities in the \$2 billion National Climate Fund – using blended finance to accelerate investment in large-scale projects across critical sectors including energy, transport and infrastructure

2023-2026 Investment Highlights:

- Power Sector Reset Programme: ₦4 trillion invested in national generation companies
- Presidential Metering Initiative: ₦1.325 trillion investment to deploy 7 million smart meters
- DARES Renewable Energy Project: \$750 million approved with World Bank

Moderators

David Arinze
